

**EYES Clinical Observership Programme (C.O.P)**  
**University Hospital Basel, Switzerland**

**Location:** University Hospital Basel, Switzerland, <https://www.unispital-basel.ch/en/endokrinologie>

**Mentor:** Prof. Mirjam Christ-Crain

**Early Career Contact Person:** Dr. Julia Beck

We are delighted to welcome Early Career Investigators to join our team for 1 month. We offer an insight into our broad clinical expertise, ranging from neuroendocrinology, neuroendocrine tumors, thyroid conditions to transgender care, adiposity, and bariatric treatment.

While our clinical work primarily takes place in German, we offer weekly clinical seminars in English, which connect Endocrinologists across Switzerland. There is also the opportunity to gain an insight into our clinical research groups.

We are looking forward to welcoming you in Basel.

Prof. Mirjam Christ-Crain
